

AuthorsLab Legal Documents - Full Suite

Delivery note

I've drafted all five priority documents below, in priority order. Each is formatted as a standalone Markdown file ready for Next.js. A brief note on approach before we begin:

Assumptions applied across all documents:

Item	Assumption used
Registered entity	AuthorsLab Ltd (UK company) - [Paul to confirm and replace]
Jurisdiction	England & Wales, with UK GDPR as primary data law
EU GDPR	Also addressed (UK and EU GDPR run in parallel)
Supabase region	EU West (Ireland) - [Paul to confirm]
DPA scope	UK GDPR + EU GDPR (dual-regime)
ICO registration	Assumed required - [Paul to confirm registration number]
Governing law	England & Wales
Currency	GBP (with USD noted as alternative for non-UK subscribers)
Subscription default	Monthly and annual tiers, specific pricing not yet set
Effective date	`{{{EFFECTIVE_DATE}}}` throughout

The three documents in the Clarence folder (Services agreement redlines) appear to relate to a separate matter and haven't informed these drafts - I'm working entirely from the brief above.

DOCUMENT 1 - PRIVACY POLICY

```markdown

### Privacy Policy

Last updated: {{{EFFECTIVE\_DATE}}}

---

Your writing is yours. That's not a marketing line - it's the principle that shapes every decision we've made about how AuthorsLab handles your data. This policy explains, in plain terms, what we collect, why we collect it, how we protect it, and what control you have over it.

Please read it. We've tried to make it worth your time.

---

## 1. Who we are

AuthorsLab is operated by AuthorsLab Ltd [Paul: confirm registered name], a company registered in England and Wales (company number [- ]). Our registered address is [- ].

When this policy refers to "AuthorsLab", "we", "us", or "our", it means AuthorsLab Ltd.

We are registered with the UK Information Commissioner's Office (ICO) under registration number [- ].

You can reach us about anything in this policy at [privacy@authorslab.ai](mailto:privacy@authorslab.ai).

---

## 2. What this policy covers

This policy covers all personal data we collect when you:

- visit `authorslab.ai` or any subdomain
- create an account and use the AuthorsLab platform
- communicate with us by email or through the platform

It does not cover third-party websites we may link to. Those sites have their own privacy policies, and we're not responsible for them.

---

## 3. The data we collect

### 3.1 Account data

When you create an account, we collect:

- your name
- your email address

- your password (stored in hashed form - we never see or store your password in plain text)
- your phone number, if you choose to provide one

### **3.2 Manuscript content**

AuthorsLab is built around your manuscripts. When you upload or create work on the platform, we store:

- the full text of your manuscript, chapter by chapter
- the title, genre, word count, and any other descriptive information you provide
- version history as your manuscript evolves

This content lives in your account. It belongs to you. See Section 7 for how we keep it protected.

### **3.3 AI conversation history**

Every conversation you have with an AI persona on AuthorsLab - Alex, Sam, Jordan, Taylor, Kai, Riley - is retained in your account as part of your project record. This includes:

- the full transcript of each session
- the context the AI used when responding

We keep this history so that each persona can carry meaningful continuity across sessions. You can request deletion of your conversation history at any time (see Section 10).

### **3.4 AI-generated content**

The platform creates editorial and creative outputs on your behalf, including:

- developmental feedback and structural notes
- line-edit suggestions and copy-edit corrections
- cover image drafts
- marketing copy and launch plans
- formatted manuscript files

These are stored in your account alongside your manuscript.

### **3.5 Payment data**

If you subscribe to a paid tier, payment is handled by Stripe. We receive a record that payment was made and your subscription status, but we do not store your card number, bank details, or CVV. Stripe holds that information under its own privacy and security standards.

### 3.6 Usage and analytics data

We collect aggregate data about how the platform is used - which features are accessed, how long sessions last, which pages are visited. This data is analysed in aggregate and is not used to build individual behavioural profiles for advertising purposes.

Our current analytics provider is Vercel Analytics [Paul: confirm or update]. This may change; we'll update this policy when it does.

### 3.7 Technical data

When you use the platform, we automatically collect standard technical information including:

- your IP address
- browser type and version
- device type
- pages visited and time spent
- referring URLs

---

## 4. How and why we use your data

We use your data for specific, legitimate purposes. Here's what they are, and the legal basis we rely on under UK GDPR and EU GDPR for each.

| Purpose                                                                                                | Legal basis                                                              |
|--------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|
| Providing the AuthorsLab service - storing your account, manuscript, and outputs                       | Contract performance (Article 6(1)(b))                                   |
| Processing AI editorial requests - passing manuscript excerpts to Anthropic or cover prompts to OpenAI | Contract performance (Article 6(1)(b))                                   |
| Sending transactional emails - account confirmation, password resets, notifications                    | Contract performance (Article 6(1)(b))                                   |
| Processing payments via Stripe                                                                         | Contract performance (Article 6(1)(b))                                   |
| Analysing aggregate platform usage to improve the service                                              | Legitimate interests (Article 6(1)(f))                                   |
| Complying with legal obligations (e.g. tax records, responding to lawful requests)                     | Legal obligation (Article 6(1)(c))                                       |
| Sending product updates or feature announcements by email                                              | Legitimate interests (Article 6(1)(f)) - you can unsubscribe at any time |

We do not use your data for automated profiling that produces legal or similarly significant effects on you.

---

## 5. How we share your data

### 5.1 Subprocessors

We share data with a defined list of third-party service providers (subprocessors) who process data on our behalf. These are the companies that make the platform work. The full list is published separately at [\[authorslab.ai/legal/subprocessors\]/\(legal/subprocessors\)](https://authorslab.ai/legal/subprocessors/) and updated when it changes.

The key ones to know about:

- Supabase - stores your account data, manuscript files, and AI-generated content. Data is held in EU West (Ireland) [Paul: confirm region].
- Anthropic - receives manuscript excerpts and conversation context to generate editorial responses via the Claude API. Anthropic does not use your content to train its models under our commercial API agreement.
- OpenAI - receives cover description prompts to generate cover images via DALL-E. OpenAI does not use your content to train its models under our commercial API agreement.
- n8n Cloud - orchestrates the AI editing pipelines that coordinate requests between the platform and Anthropic/OpenAI.
- Stripe - processes subscription payments.

Every subprocessor we use is bound by a data processing agreement. None of them may use your data for their own purposes.

### 5.2 Publisher access - explicit and author-controlled only

AuthorsLab has a planned feature that allows you to invite a named publisher into specific surfaces of a book project - cover design, formatting, and marketing planning. This is entirely your choice. You initiate it. You control it. You can revoke it.

Your writing space - your Library, Author Studio, and all conversations with Riley - is never accessible to any third party. Period. No publisher, no partner, no one outside your account can see your drafts, your editorial conversations, or your personal writing history. That boundary is built into the architecture of the platform, not just this policy.

When you do invite a publisher, they see only the surfaces you've opened, only for the book you've specified. No other manuscripts. No chat history. No editorial feedback from Alex, Sam, or Jordan.

### 5.3 Legal disclosures

We may disclose personal data if required to do so by law, court order, or regulatory authority, or to protect the rights, property, or safety of AuthorsLab, our users, or others. We will tell you if we are required to make such a disclosure unless we are legally prohibited from doing so.

## 5.4 Business transfers

If AuthorsLab is acquired, merged, or undergoes a change of ownership, your data may transfer to the new entity as part of that transaction. We will notify you before any such transfer takes effect and explain your options at that time.

## 5.5 What we never do

- We do not sell your personal data to anyone.
- We do not share your manuscript with any AI company for training purposes.
- We do not use your writing to train any model, internal or external.
- We do not share your manuscript content outside your account except as described in Sections 5.1 and 5.2.

---

## 6. International data transfers

AuthorsLab is based in the United Kingdom. Our primary data storage is in the EU (Ireland via Supabase). When data is transferred between the UK and the EU, it moves under the UK Government's adequacy decision for the EEA.

Some subprocessors - including Anthropic, OpenAI, and Stripe - are based in the United States. Transfers to them take place under appropriate safeguards, including the UK International Data Transfer Agreement (IDTA) and/or the EU Standard Contractual Clauses (SCCs), as applicable. You can request copies of the relevant transfer mechanisms by writing to us at [privacy@authorslab.ai](mailto:privacy@authorslab.ai).

---

## 7. How we protect your data

We take data security seriously. Our measures include:

- Encryption in transit: all data is transmitted over TLS/HTTPS.
- Encryption at rest: all manuscript files and account data stored in Supabase are encrypted at rest.
- Authentication: passwords are hashed using bcrypt via Supabase Auth and never stored

in plain text.

- Access controls: access to production data is limited to personnel who need it to operate or maintain the service, and is logged.
- Subprocessor vetting: we review the security practices of each subprocessor before onboarding them.

No system is completely immune to attack. If we become aware of a security incident that affects your personal data, we will notify you and the relevant supervisory authorities as required by law.

---

## 8. How long we keep your data

| Data type               | Retention period                                                                                      |
|-------------------------|-------------------------------------------------------------------------------------------------------|
| Account data            | For as long as your account is active, plus 30 days after deletion to allow recovery                  |
| Manuscript content      | For as long as your account is active; deleted within 30 days of account deletion                     |
| AI conversation history | Retained indefinitely during account activity; deleted on account deletion or earlier on your request |
| AI-generated outputs    | For as long as your account is active                                                                 |
| Payment records         | 7 years (UK tax and accounting obligations)                                                           |
| Analytics data          | Aggregated and anonymised; retained indefinitely in aggregate form                                    |
| Technical/log data      | 90 days                                                                                               |

When data is deleted, it is removed from our live systems. Residual copies in backups are overwritten within 30 days in the normal backup cycle.

---

## 9. Your rights

Under UK GDPR (and EU GDPR where applicable), you have the following rights. We take them seriously.

- Right to access. You can ask us for a copy of the personal data we hold about you.
- Right to rectification. If any data we hold is inaccurate or incomplete, you can ask us to correct it.
- Right to erasure. You can ask us to delete your personal data. We'll do so unless we have a legal obligation to keep it (for example, payment records we're required to retain for tax purposes).

- Right to restriction. You can ask us to restrict processing of your data in certain circumstances - for example, while a dispute about accuracy is resolved.
- Right to data portability. You can ask for your personal data in a structured, machine-readable format so you can take it to another service. For manuscript content, we will provide your files in the format they were uploaded or in a standard document format.
- Right to object. You can object to processing based on legitimate interests, including receiving product update emails from us.
- Rights related to automated decision-making. We don't make automated decisions that significantly affect you, but if we ever do, you'll have the right to human review.

To exercise any of these rights, email us at [privacy@authorslab.ai](mailto:privacy@authorslab.ai). We'll respond within one calendar month. If we need more time (up to two additional months for complex requests), we'll let you know.

We do not charge for these requests unless they are manifestly unfounded or excessive.

---

## 10. Deleting your conversation history

You don't need to delete your whole account to remove AI conversation history. You can request deletion of chat transcripts with individual personas, or all conversation history, by emailing [privacy@authorslab.ai](mailto:privacy@authorslab.ai) or using the data management tools in your account settings [Paul: confirm if self-serve deletion is available at launch].

---

## 11. Children

AuthorsLab is intended for adults. We do not knowingly collect personal data from anyone under the age of 18. If you believe a child has provided us with personal data, please contact us and we'll delete it promptly.

---

## 12. Cookies

We use cookies and similar technologies on [`authorslab.ai`](https://authorslab.ai). Our full Cookie Policy, including a list of the cookies we set and what they do, is available at [\[authorslab.ai/legal/cookies\]](https://authorslab.ai/legal/cookies)(/legal/cookies).

---

## 13. Changes to this policy

If we make material changes to this policy - changes that affect what data we collect, why we collect it, or who we share it with - we'll let you know by email and by posting a notice on the platform before the changes take effect. You'll have the opportunity to review them before they apply to you.

Minor changes (for example, correcting a typo or updating a company address) will be noted in the "Last updated" date at the top of this page.

---

## 14. Complaints

If you're unhappy with how we've handled your data, please contact us first at [privacy@authorslab.ai](mailto:privacy@authorslab.ai) - we'd genuinely like the chance to put it right.

If you remain unsatisfied, you have the right to complain to the UK Information Commissioner's Office (ICO) at [\[ico.org.uk\]\(https://ico.org.uk\)](https://ico.org.uk) or on 0303 123 1113. If you're based in the EU, you may also complain to your local supervisory authority.

## DOCUMENT 2 - TERMS OF SERVICE

---

```markdown

Terms of Service

Last updated: {{EFFECTIVE_DATE}}

These are the terms on which AuthorsLab offers you access to its platform. Please read them. They're written to be understood, not endured - but they are a legal agreement, and they matter.

By creating an account, you're agreeing to these terms. If you're using AuthorsLab on behalf of a business or organisation, you're agreeing on their behalf and confirming you have authority to do so.

1. About us and these terms

1.1

AuthorsLab is operated by AuthorsLab Ltd [Paul: confirm], a company registered in England and Wales (company number [-]), registered address [-] ("AuthorsLab", "we", "us").

1.2

These Terms of Service ("Terms") govern your access to and use of the AuthorsLab platform, available at `authorslab.ai` and associated subdomains (the "Platform"), and any services provided through it (the "Services").

1.3

Our Privacy Policy ([authorslab.ai/legal/privacy]/(legal/privacy)) and Cookie Policy ([authorslab.ai/legal/cookies]/(legal/cookies)) are incorporated into these Terms by reference.

1.4

If you do not agree to these Terms, do not create an account or use the Platform.

2. Eligibility

2.1

You must be at least 18 years old to use AuthorsLab. By creating an account, you confirm

that you are.

2.2

You must provide accurate information when you create your account. Using false information is a breach of these Terms.

2.3

If you are accessing the Platform on behalf of a publisher, literary agency, or other organisation, you represent that you have the authority to bind that organisation to these Terms.

3. Your account

3.1

You are responsible for keeping your login credentials secure. We recommend using a strong, unique password and not sharing your account with others.

3.2

You are responsible for all activity that takes place under your account. If you become aware of any unauthorised access, notify us immediately at support@authorslab.ai.

3.3

Each account is for a single individual user. You may not transfer your account to another person.

4. The Services

4.1 What AuthorsLab provides

AuthorsLab provides a platform through which authors can:

- upload and manage manuscript content
- receive AI-assisted editorial feedback through named personas (Alex, Sam, Jordan)

- work through publishing preparation with persona Taylor
- develop marketing plans with persona Kai
- maintain a companion relationship with persona Riley throughout the process
- create AI-generated cover image drafts
- export formatted manuscript and marketing files

4.2 Nature of AI editorial feedback

The AI editorial personas on AuthorsLab are tools to support your writing process. They are not human editors, literary agents, or publishing professionals, and their feedback does not constitute professional advice of any kind. You are always the author. Every decision about your manuscript - whether to follow a suggestion, ignore it, or do something entirely different - is yours.

4.3 Private preview

AuthorsLab is currently in private preview. During this period:

- features may change, be added, or be removed without prior notice
- the platform may experience downtime or instability
- access may be limited or invitation-only
- we make no uptime commitments during the preview period

We will give reasonable notice before transitioning to paid tiers.

4.4 Planned features

Some features described on our website - including the ability to invite a named publisher into specific publishing and marketing surfaces of a book project - are planned but not yet available. We'll announce when they launch.

5. Your content

5.1 Ownership

Your manuscript, your words. You own all content you upload to AuthorsLab, and you own all AI-generated outputs produced within your account (editorial notes, cover images, marketing plans, formatted files). We claim no intellectual property rights in your work.

5.2 Licence to us

To provide the Services, you grant AuthorsLab a limited, non-exclusive, worldwide, royalty-free licence to store, process, and transmit your content as necessary to operate the platform. This licence exists only so we can provide the service to you. It does not give us the right to reproduce your manuscript outside the platform, share it with third parties (except as described in our Privacy Policy), or use it for any purpose beyond operating AuthorsLab for your benefit.

5.3 AI-generated outputs

AI-generated content (editorial suggestions, cover images, marketing copy) is created using AI models operated by third parties (Anthropic and OpenAI). The intellectual property status of AI-generated content is an evolving area of law. We assign to you whatever rights we have in outputs generated in your account, but we cannot guarantee that AI outputs are free from third-party intellectual property claims or that they will be protectable as copyright in all jurisdictions.

5.4 No training use

We do not use your manuscript content to train any AI model, internal or external. API calls to Anthropic and OpenAI are made under commercial agreements that prohibit those companies from using your content for model training.

5.5 Responsibility for your content

You confirm that you have the right to upload any content you provide to AuthorsLab - whether that's your own original work, content you've licensed, or content that is in the public domain. You are responsible for ensuring your content does not infringe third-party intellectual property rights.

6. Acceptable use

6.1

You agree to use AuthorsLab only for lawful purposes, in accordance with these Terms.

6.2

You must not use the Platform to:

- upload content that infringes anyone's intellectual property rights
- upload content that is defamatory, abusive, threatening, discriminatory, or otherwise unlawful
- attempt to reverse-engineer, scrape, or extract the platform's underlying technology or AI models
- probe, scan, or test the security of the platform
- use the platform to generate content designed to harass, harm, or deceive specific real people
- impersonate any person or entity
- use automated tools to access the platform in ways that strain or damage our infrastructure
- use the platform to generate content that violates applicable export control or sanctions laws

6.3

AuthorsLab is designed for literary fiction and non-fiction manuscripts. We reserve the right to suspend accounts that use the platform for purposes clearly outside its intended scope, at our reasonable discretion.

7. Subscriptions and payment

7.1

AuthorsLab operates on a subscription model. During private preview, access may be free or by invitation. Details of paid tiers and pricing will be published on the pricing page at [\[authorslab.ai/pricing\]](https://authorslab.ai/pricing) before they take effect.

7.2

Subscriptions are billed in advance - monthly or annually, depending on the plan you choose. All payments are processed by Stripe.

7.3

Cancellation. You may cancel your subscription at any time from your account settings. Cancellation takes effect at the end of your current billing period. You retain access to the platform until that date.

7.4

Refunds. We do not routinely offer refunds for partial subscription periods once a billing

cycle has begun. If you believe you have been charged in error, contact us at billing@authorslab.ai and we will investigate promptly. Nothing in this clause affects your statutory rights.

7.5

Price changes. We will give you at least 30 days' written notice before increasing the price of your subscription. If you do not wish to continue at the new price, you may cancel before the increase takes effect.

7.6

We reserve the right to suspend access to the platform if payment fails and the issue is not resolved within 14 days of notification.

8. Intellectual property - the platform itself

8.1

All intellectual property in the AuthorsLab platform - including the software, design, AI personas, names (Alex, Sam, Jordan, Taylor, Kai, Riley), the AuthorsLab brand, and all underlying technology - belongs to AuthorsLab Ltd or its licensors. Nothing in these Terms transfers any of that to you.

8.2

You may not copy, modify, distribute, sell, or create derivative works from any part of the platform or its content (other than your own content) without our written permission.

9. Publisher access

9.1

A forthcoming feature will allow you to invite a named publisher to access specific publishing, cover design, and marketing surfaces of a nominated book project on the platform.

9.2

Any such invitation is issued entirely at your discretion. Publisher access is limited to the surfaces you open and the book you specify. Publishers cannot access your manuscript in draft form, your AI conversation history, your Author Studio, your Library, or any other book project.

9.3

You may revoke publisher access at any time. We will implement revocation promptly.

10. Confidentiality of your work

10.1

We understand that an unpublished manuscript is often your most commercially and personally significant possession. We treat your content accordingly.

10.2

We will not share your manuscript or AI conversation history with any third party except:

- as necessary to operate the platform (passing excerpts to Anthropic/OpenAI for processing)
- with a publisher you have explicitly invited, limited to the surfaces you specify
- as required by law

10.3

Our employees and contractors who have access to user data are bound by confidentiality obligations.

11. Disclaimers and limitations of liability

11.1

"As is" provision. The Services are provided on an "as is" and "as available" basis during private preview. We make no warranties - express or implied - about the accuracy, completeness, or fitness for purpose of AI editorial feedback, cover images, marketing suggestions, or any other outputs generated by the platform.

11.2

AI outputs. AI is a creative and editorial tool, not an infallible advisor. We do not guarantee that editorial suggestions are accurate, appropriate, or free from error. You retain full responsibility for your manuscript and any publishing decisions you make.

11.3

Uptime. We will use reasonable endeavours to keep the platform available. We do not guarantee any specific level of uptime, particularly during private preview.

11.4

Limitation of liability. To the maximum extent permitted by law:

- AuthorsLab's total liability to you for any claim arising under or in connection with these Terms shall not exceed the greater of (a) the total subscription fees you have paid to us in the 12 months preceding the claim, or (b) £100.
- AuthorsLab shall not be liable to you for any indirect, consequential, incidental, or special loss - including loss of profit, loss of anticipated savings, loss of business opportunity, or loss of data.

11.5

Exceptions. Nothing in these Terms limits our liability for death or personal injury caused by our negligence, fraud, or any other liability that cannot be excluded by English law.

11.6

Consumer rights. If you are an individual using AuthorsLab for personal, non-commercial purposes, you may have statutory rights that cannot be excluded or limited by these Terms. Nothing here affects those rights.

12. Indemnity

You agree to indemnify and hold harmless AuthorsLab Ltd, its officers, employees, and contractors from any claim, loss, liability, or expense (including reasonable legal costs) arising from:

- your breach of these Terms

- your content infringing any third-party intellectual property rights
- your unlawful use of the platform

13. Termination

13.1 Termination by you

You may close your account at any time from your account settings or by emailing support@authorslab.ai. On closure, we will begin the deletion process described in our Privacy Policy.

13.2 Termination by us

We may suspend or terminate your account if:

- you materially breach these Terms and fail to remedy the breach within 14 days of written notice
- you breach any provision of these Terms that is not capable of remedy (for example, use of the platform to infringe third-party rights)
- we are required to do so by law

We may also terminate accounts immediately in cases of serious misconduct.

13.3 Effect of termination

On termination:

- your access to the platform ends
- you may request a copy of your content within 30 days; after that period, we will delete it in accordance with our Privacy Policy
- payment obligations that have already accrued survive termination
- Sections 5 (your content and IP), 8 (our IP), 11 (liability), 12 (indemnity), 14 (disputes), and 15 (general) survive termination

14. Disputes and governing law

14.1

These Terms are governed by the law of England and Wales.

14.2

If a dispute arises between us, we'd like the chance to resolve it informally. Please contact us first at legal@authorslab.ai. We'll aim to respond within 10 business days.

14.3

If we can't resolve a dispute informally, it shall be subject to the exclusive jurisdiction of the courts of England and Wales - except that:

- if you are a consumer resident in Scotland, Northern Ireland, or another part of the UK, you may bring proceedings in the courts of your home jurisdiction
- if you are a consumer in an EU member state, mandatory consumer protection laws of your country of residence may apply and you may have the right to refer the matter to the relevant EU authority or use the EU Online Dispute Resolution platform

15. General

15.1 Entire agreement

These Terms, together with the Privacy Policy and Cookie Policy, constitute the entire agreement between you and AuthorsLab with respect to the Services.

15.2 Variation

We may update these Terms from time to time. If we make material changes, we'll notify you by email at least 14 days before they take effect. Continued use of the platform after the effective date of new Terms constitutes acceptance.

15.3 Severability

If any clause of these Terms is held to be unenforceable, the remaining clauses continue in full force.

15.4 Waiver

Our failure to enforce any right or provision of these Terms does not constitute a waiver of that right or provision.

15.5 Assignment

We may assign or transfer our rights and obligations under these Terms to any successor entity (for example, in connection with an acquisition). We will notify you if this happens. You may not assign your rights under these Terms without our written consent.

15.6 Third-party rights

These Terms do not create any rights under the Contracts (Rights of Third Parties) Act 1999 that are enforceable by any person other than you and AuthorsLab.

## Cookie Policy

Last updated: {{EFFECTIVE\_DATE}}

---

AuthorsLab uses cookies and similar technologies on `authorslab.ai`. This policy explains what cookies we use, why, and how you can manage them.

We've kept this short. Writers don't need more small print.

---

### 1. What are cookies?

Cookies are small text files placed on your device when you visit a website. They help websites remember things - whether you're logged in, your preferences, or how you arrived. Some cookies last only as long as your browser session; others persist on your device for a set period.

We also use similar technologies including local storage (to keep you logged in) and pixel tags (small invisible images that confirm whether an email has been opened).

---

## 2. The cookies we use

### 2.1 Strictly necessary cookies

These cookies are required for the platform to work. Without them, you can't log in or navigate the platform. We don't ask for your consent to place these.

| Cookie / technology | Provider | Purpose                                 | Duration |
|---------------------|----------|-----------------------------------------|----------|
| `sb-access-token`   | Supabase | Maintains your authentication session   | Session  |
| `sb-refresh-token`  | Supabase | Refreshes your authentication session   | 7 days   |
| `__stripe_mid`      | Stripe   | Fraud prevention for payment processing | 1 year   |
| `__stripe_sid`      | Stripe   | Fraud prevention during payment session | Session  |

### 2.2 Analytics cookies

These cookies help us understand how the platform is being used - which features are popular, where users get stuck, and whether our changes are working. The data is aggregated and not tied to your identity for advertising purposes.

| Cookie / technology       | Provider | Purpose                                  | Duration          |
|---------------------------|----------|------------------------------------------|-------------------|
| `va-*` (Vercel Analytics) | Vercel   | Aggregate page view and performance data | Session / 90 days |

[Paul: Vercel Analytics is privacy-friendly by design (no fingerprinting, no cross-site tracking). If you switch analytics vendors, update this table.]

### 2.3 Functional cookies

These cookies support features that improve your experience but aren't strictly essential.

| Cookie / technology | Provider                 | Purpose                                             | Duration |
|---------------------|--------------------------|-----------------------------------------------------|----------|
| `theme-preference`  | AuthorsLab (first-party) | Remembers your display preference (light/dark mode) | 1 year   |

[Paul: update this table as platform features develop. Include any onboarding/tour cookies.]

## 2.4 Third-party cookies

When third-party services are loaded on our pages, they may set their own cookies. The main third parties whose services may result in cookies being set are:

- Cloudflare - used for DNS and security. Cloudflare may set `\_\_cf\_bm` (bot management) and `cf\_clearance` cookies.
- Stripe - sets cookies described in 2.1 above when you visit payment-related pages.

We do not use advertising cookies, tracking pixels for retargeting, or social media embeds that set third-party advertising cookies.

---

## 3. What we don't do with cookies

- We do not use cookies to build advertising profiles.
- We do not sell or share cookie data with advertising networks.
- We do not use cookies to track you across other websites.

---

## 4. How to manage cookies

### 4.1 Browser settings

You can control or delete cookies through your browser settings. Most browsers allow you to:

- see what cookies are stored
- block cookies from specific sites
- block third-party cookies generally
- delete all cookies when you close the browser

Links to cookie settings for common browsers:

- [Chrome](https://support.google.com/chrome/answer/95647)
- [Firefox](https://support.mozilla.org/en-US/kb/cookies-information-websites-store-on-your-computer)
- [Safari](https://support.apple.com/en-gb/guide/safari/sfri11471/mac)

- [Edge](https://support.microsoft.com/en-us/windows/delete-and-manage-cookies)

Note: blocking strictly necessary cookies will prevent you from logging in to AuthorsLab.

## 4.2 Our cookie banner

When you first visit `authorslab.ai`, we present a cookie notice that gives you control over non-essential cookies. You can update your preferences at any time via the cookie settings link in the site footer.

---

## 5. Changes to this policy

If we add new cookies or change how we use existing ones, we'll update this policy and revise the date at the top of the page. If the change is material, we'll let you know.

---

## 6. Contact

## DOCUMENT 4 - SUBPROCESSOR LIST

---

```markdown

Subprocessor List

Last updated: {{EFFECTIVE_DATE}}

AuthorsLab uses a number of third-party service providers - called subprocessors - to help deliver the platform. Each of these companies processes some personal data on our behalf, under our instructions, and under a data processing agreement with us.

This page is our commitment to transparency. We update it when our subprocessor list changes.

Current subprocessors

| Subprocessor | Purpose | Data processed | Location |
|---|---|--|---------------------------------------|
| Supabase, Inc. | Database, authentication, and file storage | Account data, manuscript content, chat history, AI-generated files | EU West - Ireland [Paul: confirm] |
| Vercel, Inc. | Application hosting and delivery | IP addresses, page view data | Global CDN (primary: US) |
| Anthropic, PBC | LLM inference - AI editorial personas (Alex, Sam, Jordan) and companion persona (Riley) | Manuscript excerpts, chat context | United States |
| OpenAI, LLC | DALL-E image generation - book cover drafts | Cover description prompts | United States |
| n8n GmbH (n8n Cloud) | Workflow orchestration for AI editor pipelines | Manuscript excerpts passed between platform and AI providers | EU (Germany) |
| Stripe, Inc. | Payment processing | Name, email, payment card details, billing address | United States |
| APITemplate.io | PDF report generation | Manuscript and editorial data included in PDF outputs | [Paul: confirm region] |
| ConvertAPI | HTML to DOCX manuscript formatting | Manuscript content during conversion | [Paul: confirm region - EU preferred] |
| Resend, Inc. [or confirm SMTP provider] | Transactional email (account confirmations, notifications) | Name, email address | United States [Paul: confirm] |
| Cloudflare, Inc. | DNS, DDoS protection, CDN | IP addresses, request metadata | Global (US-headquartered) |

Notes on AI subprocessors

AuthorsLab's use of Anthropic and OpenAI is governed by their commercial API terms.

Under those agreements:

- Anthropic does not use content submitted via the API to train its models.
- OpenAI does not use content submitted via the API to train its models.

This means your manuscript content, when passed to these services for editorial processing or cover generation, is not used to improve their AI systems.

International transfers

Several subprocessors are based in the United States. Where personal data is transferred to US-based subprocessors, we rely on:

- UK International Data Transfer Agreements (IDTAs) for transfers from the UK
- EU Standard Contractual Clauses (SCCs) for transfers from the EU

Copies of relevant transfer mechanisms are available on request at privacy@authorslab.ai.

Changes to this list

We review our subprocessor list regularly. When we add or remove a subprocessor, we update this page and revise the "Last updated" date above. If you have subscribed to subprocessor change notifications [Paul: add mechanism if implemented], we'll also notify you by email.

If you have concerns about any subprocessor, please contact us at privacy@authorslab.ai.

DOCUMENT 5 - DATA PROCESSING ADDENDUM (DPA)

```markdown

## Data Processing Addendum

Last updated: {{EFFECTIVE\_DATE}}

---

> Note for AuthorsLab: This DPA is designed for enterprise or publisher customers who  
> sign a separate commercial agreement with AuthorsLab and require a formal data processing  
> addendum under UK GDPR / EU GDPR. It is not presented to ordinary subscribers. For  
> standard subscribers, the Privacy Policy governs data processing.

---

## DATA PROCESSING ADDENDUM

This Data Processing Addendum ("DPA") is entered into between:

AuthorsLab Ltd, a company registered in England and Wales (company number [- ]),  
with registered address at [- ] ("AuthorsLab" / "Processor")

and

[CUSTOMER ENTITY NAME], a company registered in [jurisdiction] (company  
number [- ]), with registered address at [- ] ("Customer" / "Controller")

(each a "Party", together the "Parties").

This DPA supplements and forms part of the agreement between the Parties for access to  
the AuthorsLab platform ("Main Agreement"). In the event of conflict between this DPA  
and the Main Agreement, this DPA takes precedence in respect of data protection matters.

---

## **PART ONE - PRELIMINARY**

### **1. Definitions**

In this DPA, the following terms have the meanings given below. Capitalised terms not defined  
here have the meanings given in the Main Agreement.

1.1 "Applicable Data Protection Law" means:

- (a) UK GDPR and the Data Protection Act 2018, as applicable in the United Kingdom; and/or
- (b) EU GDPR (Regulation (EU) 2016/679), as applicable in any member state of the  
European Economic Area;

in each case as amended or replaced from time to time.

1.2 "Controller" has the meaning given in Applicable Data Protection Law - in the  
context of this DPA, the Customer.

1.3 "Data Subject" means an identified or identifiable natural person whose Personal  
Data is Processed.

1.4 "EU GDPR" means Regulation (EU) 2016/679 of the European Parliament and of  
the Council.

1.5 "Personal Data" has the meaning given in Applicable Data Protection Law.

1.6 "Personal Data Breach" means a breach of security leading to the accidental or  
unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, Personal Data.

1.7 "Process" / "Processing" has the meaning given in Applicable Data Protection Law.

1.8 "Processor" has the meaning given in Applicable Data Protection Law - in the context of this DPA, AuthorsLab.

1.9 "Restricted Transfer" means a transfer of Personal Data from the UK to a third country, or from the EEA to a third country, in circumstances where the transfer is subject to restrictions under Applicable Data Protection Law.

1.10 "Standard Contractual Clauses" or "SCCs" means the standard contractual clauses for the transfer of Personal Data to third countries annexed to European Commission Implementing Decision (EU) 2021/914.

1.11 "Sub-processor" means any processor engaged by AuthorsLab to carry out Processing activities on behalf of the Customer.

1.12 "UK GDPR" means the retained EU law version of Regulation (EU) 2016/679, as it forms part of the law of England and Wales, Scotland, and Northern Ireland by virtue of the European Union (Withdrawal) Act 2018.

1.13 "UK IDTA" means the International Data Transfer Agreement issued by the Information Commissioner's Office under section 119A of the Data Protection Act 2018.

---

## **2. Relationship of the parties and subject matter**

2.1 The Parties acknowledge that, in relation to the Processing of Personal Data described in Schedule 1 (Processing Details), the Customer is the Controller and AuthorsLab is the Processor.

2.2 AuthorsLab shall Process Personal Data only as necessary to perform its obligations under the Main Agreement and only in accordance with the Customer's documented instructions, except where required to do so by applicable law (in which case AuthorsLab shall, where permitted by law, notify the Customer before such Processing).

2.3 If AuthorsLab reasonably believes that an instruction given by the Customer would cause it to breach Applicable Data Protection Law, it shall notify the Customer promptly.

---

## **PART TWO - PROCESSOR OBLIGATIONS**

### **3. Confidentiality and personnel**

3.1 AuthorsLab shall ensure that persons authorised to Process Personal Data on its behalf are subject to appropriate confidentiality obligations.

3.2 AuthorsLab shall ensure that access to Personal Data is limited to those personnel who need it to perform AuthorsLab's obligations under the Main Agreement.

---

## 4. Security

4.1 AuthorsLab shall implement and maintain appropriate technical and organisational measures to protect Personal Data against a Personal Data Breach, having regard to the state of the art, the costs of implementation, and the nature, scope, context, and purposes of Processing, as well as the risks of varying likelihood and severity.

4.2 Such measures shall include, as a minimum:

- (a) encryption of Personal Data in transit using TLS/HTTPS;
- (b) encryption of Personal Data at rest;
- (c) appropriate access controls and authentication mechanisms;
- (d) regular testing and evaluation of the effectiveness of security measures.

4.3 AuthorsLab shall provide the Customer, on request, with sufficient information to demonstrate compliance with this clause 4, including completing reasonable security questionnaires.

---

## 5. Sub-processing

5.1 The Customer provides general authorisation to AuthorsLab to engage Sub-processors. AuthorsLab's current Sub-processors are listed at [\[authorslab.ai/legal/subprocessors\]](#)(/legal/subprocessors) ("Sub-processor List").

5.2 AuthorsLab shall give the Customer at least 30 days' prior written notice before adding or replacing a Sub-processor, by updating the Sub-processor List and notifying the Customer at the email address on their account [Paul: consider a dedicated notification mechanism for enterprise customers].

5.3 The Customer may object to a new Sub-processor within 14 days of receiving such notice, providing written reasons for the objection. If the Parties are unable to resolve the objection within a further 14 days, the Customer may terminate the Main Agreement on written notice, and AuthorsLab shall refund any pre-paid fees for the unexpired portion of the subscription term.

5.4 AuthorsLab shall impose data protection obligations on each Sub-processor equivalent to those set out in this DPA.

5.5 AuthorsLab remains fully liable to the Customer for the acts and omissions of its Sub-processors.

---

## **6. Data subject rights**

6.1 AuthorsLab shall, taking into account the nature of the Processing, assist the Customer by appropriate technical and organisational measures to fulfil the Customer's obligations to respond to Data Subject rights requests under Applicable Data Protection Law.

6.2 If AuthorsLab receives a request directly from a Data Subject in connection with Customer Personal Data, AuthorsLab shall promptly forward it to the Customer without responding to it directly (unless the Customer has authorised AuthorsLab to respond).

---

## **7. Data protection impact assessments and prior consultation**

To the extent required by Applicable Data Protection Law, AuthorsLab shall provide the Customer with reasonable assistance with data protection impact assessments and with prior consultation with supervisory authorities, where such assessments or consultations relate to Personal Data Processed by AuthorsLab on behalf of the Customer.

---

## **8. Personal Data Breaches**

8.1 AuthorsLab shall notify the Customer without undue delay - and in any event within 72 hours of becoming aware - of a Personal Data Breach affecting Customer Personal Data.

8.2 The notification shall, to the extent available at the time, include:

- (a) a description of the nature of the breach, including the categories and approximate number of Data Subjects and Personal Data records concerned;
- (b) the name and contact details of AuthorsLab's data protection contact;
- (c) a description of the likely consequences of the breach;
- (d) a description of the measures taken or proposed to address the breach.

8.3 AuthorsLab shall cooperate with the Customer and take reasonable steps to mitigate the effects of and remediate the breach.

---

## 9. Deletion and return of data

9.1 On termination of the Main Agreement, or on the Customer's written request, AuthorsLab shall, at the Customer's election:

- (a) securely delete all Customer Personal Data in its possession; or
- (b) return all Customer Personal Data to the Customer in a portable format

within 30 days, and certify in writing that it has done so.

9.2 AuthorsLab may retain Customer Personal Data to the extent required by applicable law, provided that it ensures the confidentiality of that data and does not use it for any other purpose.

---

## 10. Audits and inspections

10.1 AuthorsLab shall make available to the Customer such information as is reasonably necessary to demonstrate compliance with this DPA, and shall allow for and contribute to audits, including inspections, conducted by the Customer or a mandated auditor.

10.2 The Customer shall give AuthorsLab at least 30 days' prior written notice of an audit, and audits shall be conducted during normal business hours, no more than once per calendar year, and in a manner that minimises disruption to AuthorsLab's operations.

10.3 The Customer shall bear the cost of any audit unless the audit reveals a material breach of this DPA by AuthorsLab, in which case AuthorsLab shall bear its reasonable costs.

---

## PART THREE - INTERNATIONAL TRANSFERS

### 11. Restricted transfers

11.1 AuthorsLab shall not carry out a Restricted Transfer of Customer Personal Data without ensuring that an appropriate transfer mechanism is in place.

11.2 For transfers from the UK to third countries:

The Parties agree that the UK IDTA (or such other transfer mechanism as the ICO may approve) shall apply to any Restricted Transfer of UK Personal Data. The UK IDTA is hereby

incorporated into and forms part of this DPA, with the relevant details set out in Schedule 2.

11.3 For transfers from the EEA to third countries:

The Parties agree that the SCCs (Module 2: Controller-to-Processor) shall apply to any Restricted Transfer of EEA Personal Data, with the relevant details set out in Schedule 2.

11.4 In respect of Restricted Transfers to AuthorsLab's Sub-processors, AuthorsLab shall ensure that appropriate transfer mechanisms are in place, as described in clause 5.4.

---

## **PART FOUR - CONTROLLER OBLIGATIONS**

### **12. Customer obligations**

12.1 The Customer warrants that:

- (a) it has a lawful basis for the Processing activities described in Schedule 1 and has complied with all applicable notice and transparency requirements;
- (b) it is authorised to provide AuthorsLab with any Personal Data it provides under the Main Agreement;
- (c) its instructions to AuthorsLab will comply with Applicable Data Protection Law.

12.2 The Customer is responsible for ensuring that the Personal Data it provides to AuthorsLab is accurate, adequate, relevant, and limited to what is necessary for the purposes described in Schedule 1.

---

## **PART FIVE - GENERAL**

### **13. Liability**

13.1 Each Party's liability under this DPA is subject to any limitations set out in the Main Agreement, except to the extent that applicable law prohibits any limitation on liability in respect of data protection obligations.

13.2 If a Data Subject brings a claim against either Party in respect of Processing governed by this DPA, the Parties shall cooperate in good faith to allocate liability between them in accordance with their respective responsibilities.

---

14. Term

This DPA shall commence on the date the Main Agreement becomes effective and shall continue until the Main Agreement terminates or expires, at which point this DPA shall terminate automatically (subject to clause 9 on post-termination data obligations).

---

15. Governing law

This DPA is governed by the law of England and Wales. The Parties submit to the exclusive jurisdiction of the courts of England and Wales, without prejudice to any mandatory data protection supervision rights of EU supervisory authorities.

---

16. Entire agreement

This DPA, together with the Main Agreement and its schedules, constitutes the entire agreement of the Parties with respect to the Processing of Personal Data.

---

SCHEDULE 1 - PROCESSING DETAILS

Nature and purpose of Processing

AuthorsLab processes Customer Personal Data for the purpose of providing the Services described in the Main Agreement, including storing manuscript content, facilitating AI editorial workflows, and providing access to publishing and marketing surfaces where the Customer has been granted access by an author user.

Duration of Processing

For the term of the Main Agreement, and as described in clause 9 of this DPA.

Types of Personal Data

| Category     | Details                                                                                                      |
|--------------|--------------------------------------------------------------------------------------------------------------|
| Account data | Names, email addresses of users within the Customer's organisation or associated with the Customer's account |

|                         |                                                                                           |
|-------------------------|-------------------------------------------------------------------------------------------|
| Manuscript content      | Text, metadata, and version history of manuscripts associated with the Customer's account |
| AI conversation history | Transcripts of interactions between users and AI personas                                 |
| AI-generated outputs    | Editorial notes, cover images, marketing materials                                        |

## Categories of Data Subjects

Authors, editors, and other individuals whose Personal Data is processed through the platform in connection with the Customer's use of the Services.

## Special categories of data

The Parties do not anticipate that special category Personal Data (as defined in Article 9 of UK/EU GDPR) will routinely be processed under this DPA. If the Customer wishes to process special category data, it must notify AuthorsLab in writing and obtain AuthorsLab's prior agreement.

---

## SCHEDULE 2 - INTERNATIONAL TRANSFER DETAILS

### UK IDTA (clause 11.2)

| Field                                           | Details                                                                                                    |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| Exporter                                        | Customer (as detailed in the Main Agreement)                                                               |
| Importer                                        | AuthorsLab Ltd (and, as applicable, Sub-processors listed on the Sub-processor List)                       |
| Transfer mechanism                              | UK International Data Transfer Agreement (UK IDTA)                                                         |
| Table 1 (Parties)                               | As set out in the body of this DPA                                                                         |
| Table 2 (Transfer details)                      | Processing as described in Schedule 1                                                                      |
| Table 3 (Technical and organisational measures) | As described in clause 4 of this DPA                                                                       |
| Table 4 (Ending the IDTA)                       | Either Party may end the UK IDTA if the ICO issues a revised Addendum that the other Party does not accept |

### EU SCCs (clause 11.3)

| Field                     | Details                                                            |
|---------------------------|--------------------------------------------------------------------|
| Module                    | Module 2 (Controller-to-Processor)                                 |
| Clause 7 (docking clause) | Not applicable                                                     |
| Clause 9 (sub-processors) | Option 2 (general written authorisation) with 30-day notice period |

|                                                  |                                                                                  |
|--------------------------------------------------|----------------------------------------------------------------------------------|
| Clause 11 (redress)                              | Optional language not included                                                   |
| Clause 17 (governing law of SCCs)                | Laws of Ireland [Paul: update if another EEA member state is preferred]          |
| Clause 18 (jurisdiction)                         | Courts of Ireland                                                                |
| Annex I.A (list of parties)                      | As set out in the body of this DPA                                               |
| Annex I.B (description of transfer)              | As described in Schedule 1 of this DPA                                           |
| Annex I.C (supervisory authority)                | ICO (for UK transfers); Data Protection Commission of Ireland (for EU transfers) |
| Annex II (technical and organisational measures) | As described in clause 4 of this DPA                                             |

---

## EXECUTION

This DPA is agreed and entered into by the duly authorised representatives of each Party.

## Delivery summary and next steps

All five priority documents are complete. Here's what needs to happen before they go live:

Paul's action items (from the brief):

| Item                            | Needed in     | Urgency |
|---------------------------------|---------------|---------|
| Confirm registered company name | All documents | High    |

|                                                                                |                                             |        |
|--------------------------------------------------------------------------------|---------------------------------------------|--------|
| Confirm company number and registered address                                  | All documents                               | High   |
| Confirm ICO registration number                                                | Privacy Policy (§1)                         | High   |
| Confirm Supabase region                                                        | Privacy Policy (§5.1), Subprocessor List    | High   |
| Confirm all subprocessor regions (APITemplate.io, ConvertAPI, Resend)          | Subprocessor List                           | Medium |
| Confirm analytics vendor (Vercel Analytics vs alternative)                     | Privacy Policy (§3.6), Cookie Policy (§2.2) | Medium |
| Confirm whether self-serve conversation history deletion is in scope at launch | Privacy Policy (§10)                        | Medium |
| Confirm DPA governing law for SCCs (Ireland preferred?)                        | DPA Schedule 2                              | Medium |
| Confirm any existing data processing agreements with Anthropic/OpenAI/Supabase | DPA + Privacy Policy                        | Medium |
| Confirm VAT registration status                                                | Relevant to refund policy (nice-to-have)    | Low    |

Post-launch documents (nice-to-have):

Happy to draft the Acceptable Use Policy (standalone), DMCA/copyright infringement policy, and refund policy whenever you're ready. The AUP clause in the ToS (clause 6) is deliberately brief in anticipation of a standalone document - just say the word.
